

Privacystatement

Veerkarton is committed to guarantee the privacy of visitors of its website. This privacystatement explains how data collection and use of data at the website of Veerkarton is done. The statement does not apply to other online or offline websites where Veerkarton is mentioned but no direct influence on the content. By visiting the Website, you agree to the collection and use of data as described in this Privacy Statement.

Collecting your personal data

If we need your personal data from or permission to contact you to be at your service or to send your requested information, such as an offer, we ask you for this information. For example we can collect the following personal information: your name, company or organization, your email address, your telephone number and information about your company.

Certain information about your visit to the website can be collected, such as the name of the ISP and the IP address (Internet Protocol) you are using to access the Internet, the date and time of your visit, the pages you visit and the internet address of the website from which you were linked directly to our Web site. This information is used to enhance our website, analyze trends and administer the site.

Insofar as the website allows, Veerkarton advises to be careful with placing a real e-mail address or other personal information to prevent your e-mail address or other personal information from being collected and used by others for inappropriate or harmful purposes.

The use of your personal data

The personal information collected on this website will be used for the Web site, to provide you with information and service(s) or to execute the transaction(s) you requested.

For these uses, Veerkarton can use personal information to provide you with information more efficiently, to enhance and simplify the website so you no longer need to repeatedly type the same information or to adjust the website to suit your preferences or interests. The information that's collected by this website may be combined with information from other services that are collected by Veerkarton, so that your interaction with Veerkarton is as consistent as possible.

Occasionally Veerkarton engages other companies or third parties to provide limited services such as website management, sending and delivering information and answer questions on behalf of Veerkarton. We only provide those companies the personal information they need to deliver the service. They are obliged to keep data confidential and are not allowed to use that information for any other purpose.

In some cases, Veerkarton may disclose your personal information if required by law or as Veerkarton believes in the good faith that such is necessary to:

- (a) comply with legal regulations or legal process regarding Veerkarton or its website;
- (b) protect the rights and property of Veerkarton and related websites;
- (c) act in urgent circumstances to protect the personal safety of Veerkarton-workers and other persons.

Managing your personal data

Unless otherwise stated in this statement, personal information you provide on the Website won't be shared with others outside Veerkarton or other departments of Veerkarton without your permission. As described in the next section, you can get access to your personal details and you can choose how to contact you.

If the necessity arises Veerkarton can send you an e-mail in which you are informed of technical service or security issues related to the website, or asking you to confirm that you have requested information or a contact. In some services offered through the website, contacting the visitor is an essential part of the service. Because these mailings are an essential part of the service(s) you have chosen, you can't unsubscribe them.

Security of your Personal Information

Veerkarton is committed to ensure the protection of your personal data. To be sure that unauthorized don't have access to your data, and your data will not be misused or disclosed, the website uses a variety of security technologies and procedures. For example, the personal information you provide is stored on servers with limited access. These servers are located in controlled facilities. Sensitive personal information, when transmitted over the internet, will be protected through the use of encryption, such as the SSL protocol (Secure Socket Layer).
